

MOTOTRBO R7Ex ATEX-certified portable radio accessories

MOTOROLA SOLUTIONS

Enhance performance with accessories

Customise your MOTOTRBO R7Ex to your work environment with Motorola Solutions accessories. These are designed and tested with our radios to provide optimal performance and to meet ATEX requirements as a complete system. Choose from a selection of audio accessories, batteries, chargers and carry cases.

Remote Speaker Microphones

Loud and clear audio performance

NS750Ex RSM:
With up to 103 phons loudness, AI-trained Noise Suppression (AINS) when used with the MOTOTRBO R7Ex and IP66/67[1] protection against damage from water and dust, the NS750Ex RSM delivers exceptional audio even in noisy environments. It also includes a Nexus connector that allows connection of secondary accessories and can support louder audio with compatible Motorola Solutions headsets.

RM750Ex RSM:
Experience enhanced audio clarity and loudness (102 phon max) in a compact, durable design with AINS and ingress protection (IP66/68[1]).

[1]RSM is certified to the ingress protection available under ATEX/IECEx test conditions IEC 60079.

NS750Ex RSM | RM750Ex RSM

Audio Accessories

Comfortable, responsive, reliable and high-fidelity

AD700Ex PTT Adapter:
Secure handling with dependable durability (IP65/67). Large front PTT button with strong and robust swivel clip. Rugged form factor to provide better gripability.

HS700Ex Headset:
Louder and clearer audio quality (110 dB SPL), IP65/67 ruggedness, for uncompromising audio in any environment. Available in helmet attachment style and over the head headband style to match your daily operation. Several replacement parts available to keep the hygiene and comfort.

HS750Ex Headset:
Stay situationally aware with ambient sound control while experiencing 109 dB SPL loud, clear audio, protected by IP65 durability. Available in helmet attachment style and over the head headband style to match your daily operation. Several replacement parts available to keep the hygiene and comfort.

3.5mm Earpiece:
3.5mm audio jack receive only earpiece with louder audio (122 dB SPL)

Energy

Powerful and long-lasting

You need a battery that's as powerful as your radio. Our long-lasting, swappable batteries last a full shift, ensuring the MOTOTRBO R7Ex works when you need it. The battery self calibration feature allows you to quickly charge the battery without long hours of calibration or reconditioning every month. A variety of flexible charging solutions enables you to charge between one and six batteries simultaneously, so your radios are always ready for the next shift.

Carry

Secure, easy access

Our R7Ex carry cases are constructed of top-grain leather designed to withstand the harsh conditions of mission-critical use such as in the oil and gas, chemical and pharmaceutical industries. They feature two straps with snap buttons to hold the radio securely and prevent it falling out of the case. These carry cases include two D rings to attach a strap for additional carrying flexibility as well as a 2.5 fixed and swivel belt loop.

MOTOTRBO R7Ex radio accessories

Carry solutions

These durable and hard leather carry cases are designed to withstand harsh conditions in hazardous environments. The swivel belt loops keep the case secure while allowing the radio to swing freely as you move. The carry cases' straps can hook on the cases' D-rings, and lets you wear your radio across your body, keeping your hands free.
